VIRT

# VIRT

C A M E R A

The Virt Camera System, is the first product sitting within Targets FTR programme – pushing the boundaries of dart performance in technology.

The Virt System provides 2-way camera sharing of both the dartboard and thrower simultaneously providing a consistent and professional way to share, record and show off your online gameplay.

# VIART

C A M E R A

Connected and operated exclusively through the DartCounter App, the online gameplay function allows you to play live games against people from all around the world at the click of a button.

The Virt Camera enhances this experience allowing you to directly view both your opponent and dartboard as they throw, viewed directly through your mobile or tablet device. Equally your opponent can also view you and your performance.

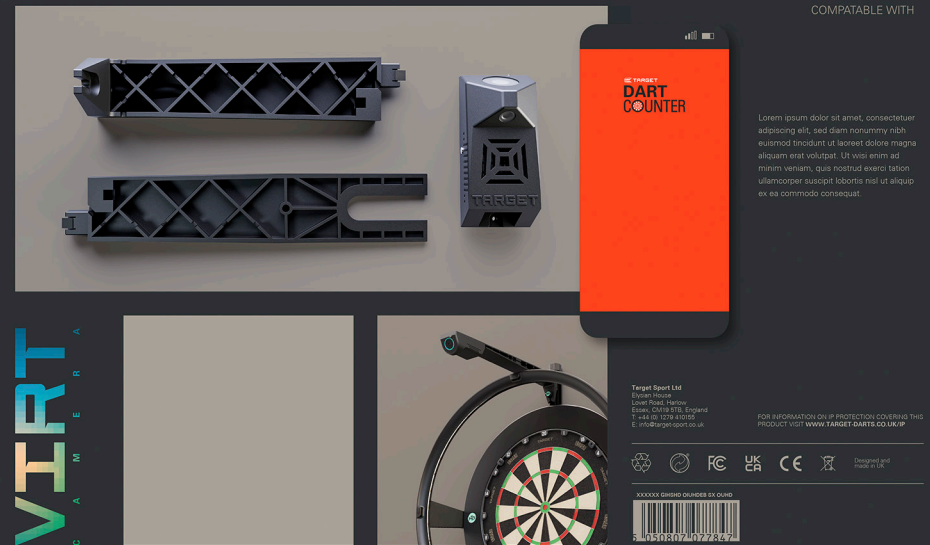

Installed at the top of the dartboard either directly on the wall or using Target Darts MOD System the Virt is ready to use within 5 minutes of being out the box.

# VIART

C A M E R A

COMPATIBLE WITH

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Ut vero enim ad minim veniam, quis nostrud exerci tation ullamcorper suscipit lobortis nisl ut aliquip ex ea commodo consequat.

Each Virt camera system automatically comes with 3 months subscription to DartCounter Premium membership.

ELYSIAN 9<sup>TH</sup> EDITION

E L Y S I A N

NINTH EDITION

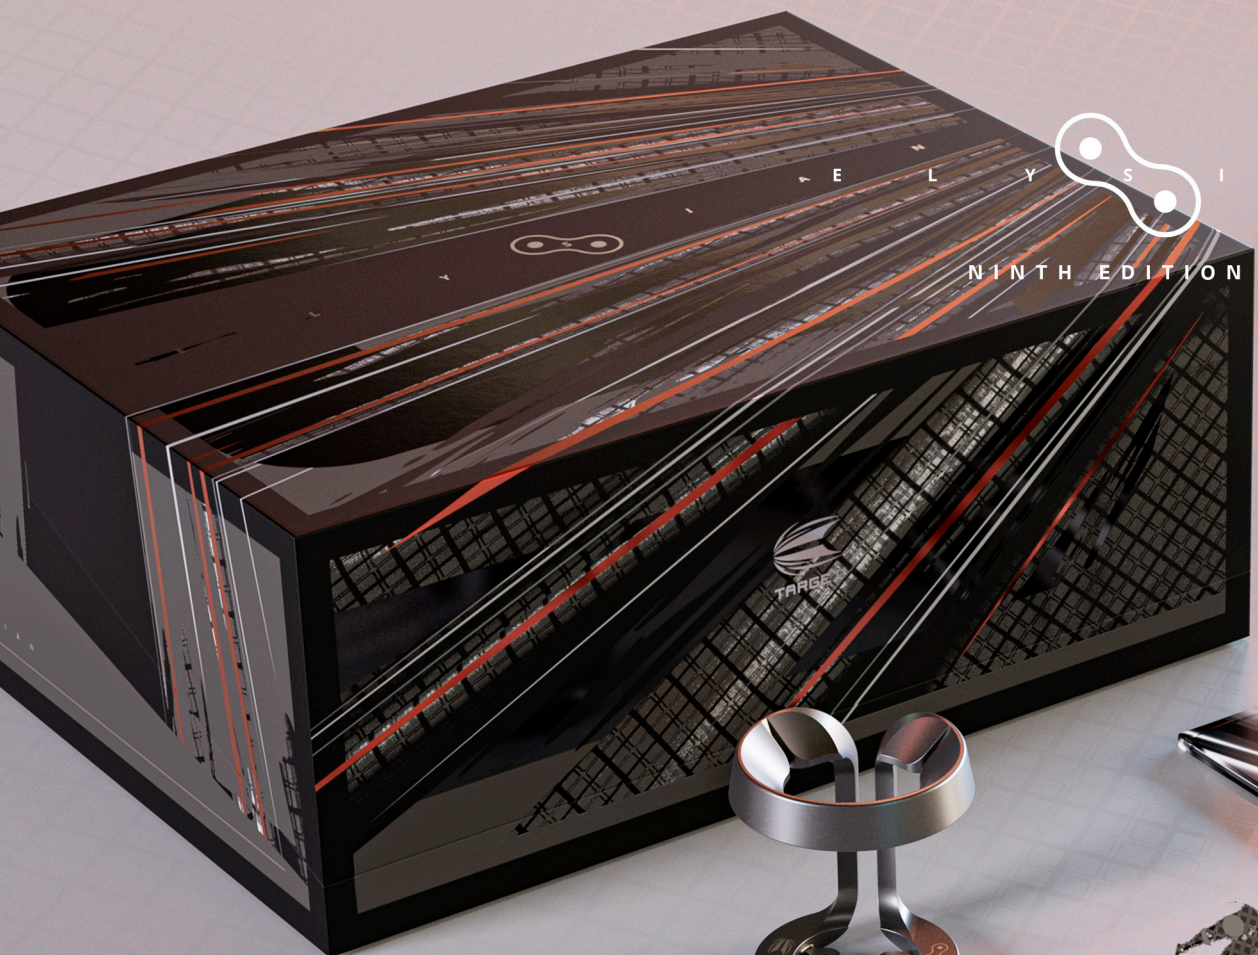

The Elysian.

Target's annual project that represents our vision for the future. The objective has remained the same for 9 years, deliver an experience that transcends darts and challenges the construct of what a dart can be.

For the Ninth Edition we chose a subject that would provide unique design opportunities. A world of possibilities, the element of speed breathing life into every design and detail of this poignant

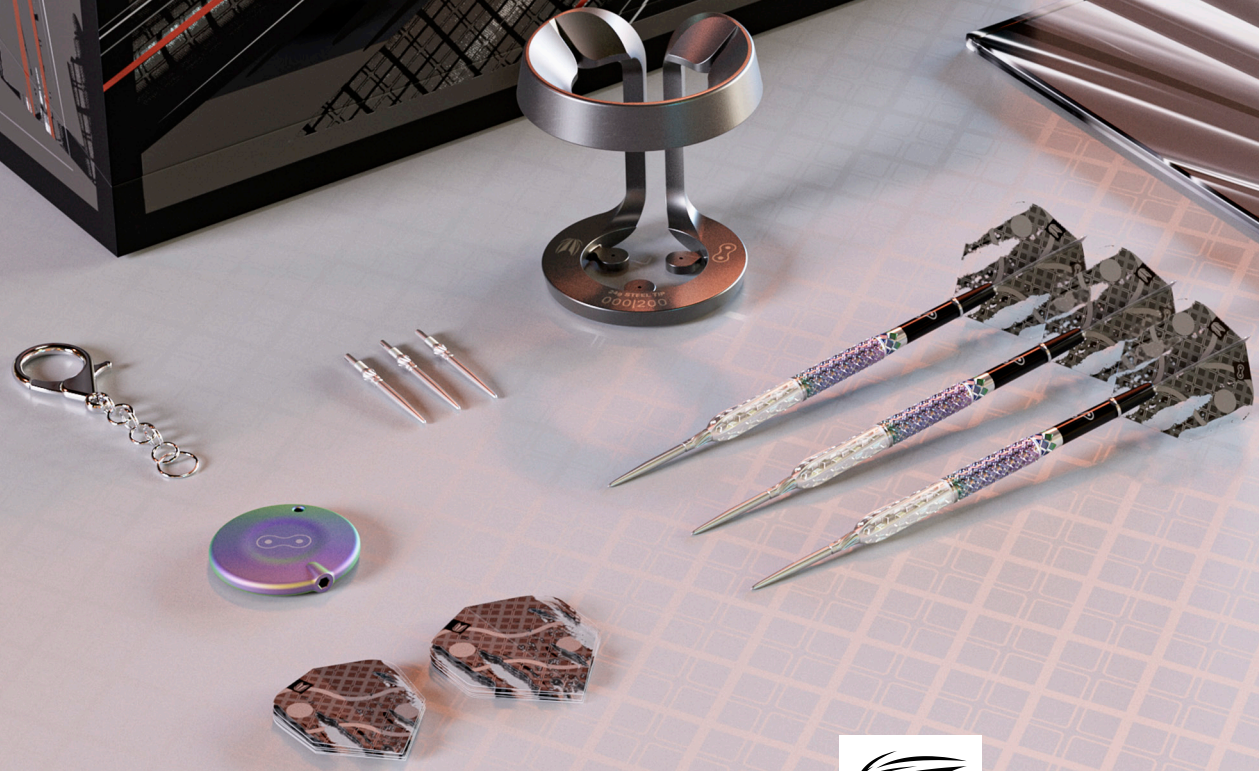

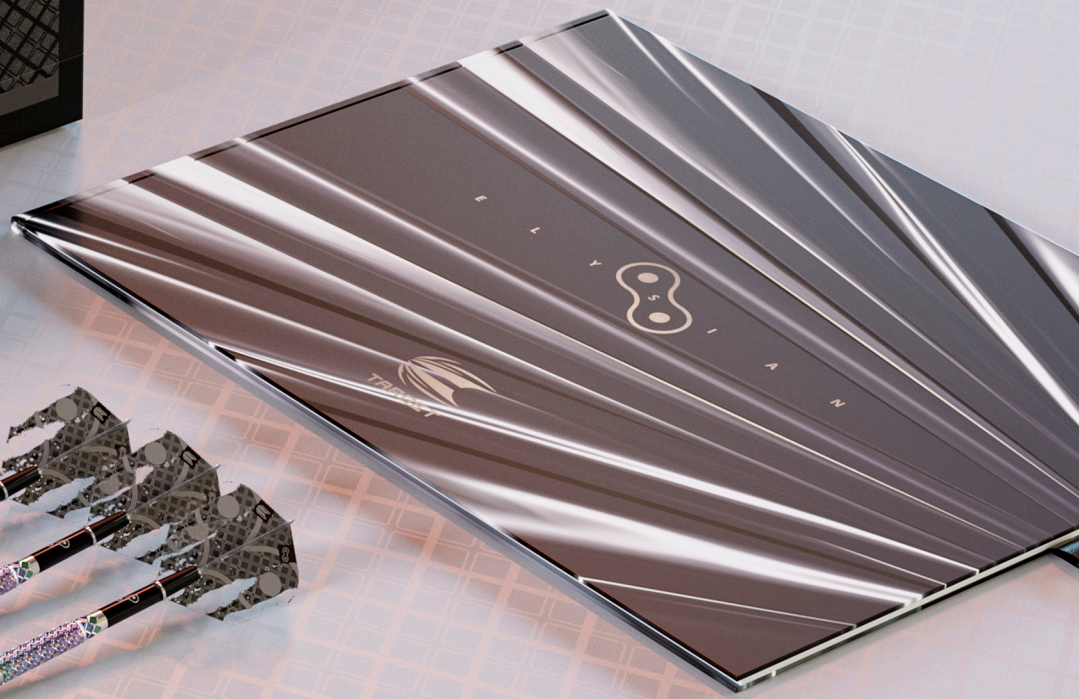

DESIGN  
NINTH EDITION

The journey of a barrel is born first from an idea. This starts as a design illustration and then moves across to 3D, from there onto a tool path then onto the milling machine.

E L Y S I A N

NINTH EDITION

Functional art. We believe that the Elysian deserves a bespoke stand that allows you to display your limited edition darts in a captivating and interesting way.

Our Ninth Edition stand is inspired by the flowing lines of movement that influenced the Elysian barrel design.

975 ULTRA-MARINE

# 975

ULTRA-MARINE

975 Editions are Inspired by pushing boundaries of dart design and performance and continuing to develop and innovate concepts as far as possible. It is our pursuit of perfection.

The barrel, inspired with elements of the Elysian 7th Edition features a combination of unique & incredibly high precision CNC machined grip profiles to create a dart of unrivalled excellence.

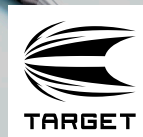

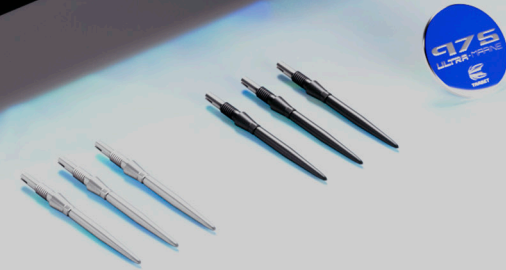

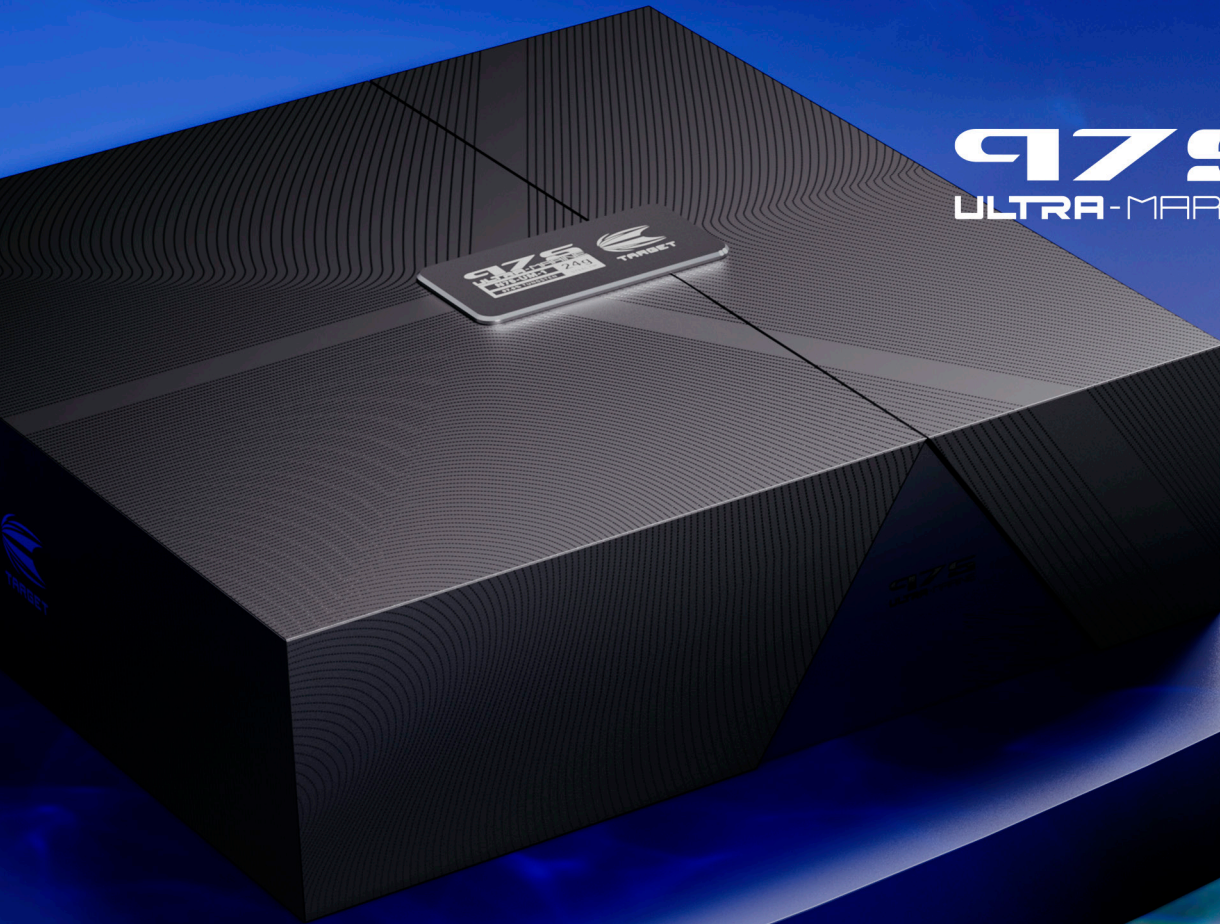

# 975

ULTRA-MARINE

The front and rear of the barrel starts with our Nano grip, the front seamlessly connected to the Swiss Storm Nano point providing a perfect grip.

The barrel is then further enhanced, featuring K-Flex in vivid blue texture.

ASP G2

# THE ASP

The Nathan Aspinall Generation 2 – created and designed in collaboration with the 2023 Matchplay Champion to enhance performance and accuracy. The result is a high precision 95% tungsten barrel with the perfect weight and balance.

The barrel features multiple grip profiles throughout the barrel offering a well balanced feel to the dart.

The front of the barrel features CNC milled cross-sections separated by natural and radial groove finishes, with a nod to 'The Asp' on the nose of the barrel.

# K-FLEX SYSTEM

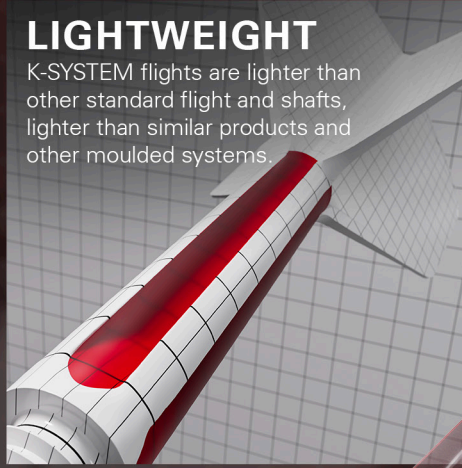

# K FLEX

## 100% SECURE

The benefit of a fixed flight and shaft system is a guarantee of the flight not falling out mid-game.

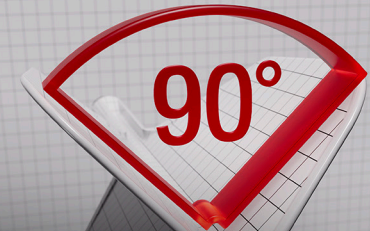

## LIGHTWEIGHT

K-SYSTEM flights are lighter than other standard flight and shafts, lighter than similar products and other moulded systems.

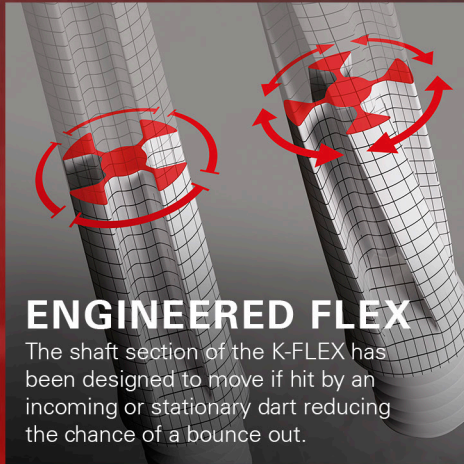

## 90° PRECISION

Our injection moulding process means the flights are at perfect 90° angles out of the box and through their playing life.

## ENGINEERED FLEX

The shaft section of the K-FLEX has been designed to move if hit by an incoming or stationary dart reducing the chance of a bounce out.

## DURABLE

A slight increase in thickness to the front and back edge of the flight increases durability dramatically over other flight types.

POWER 9FIVE G10

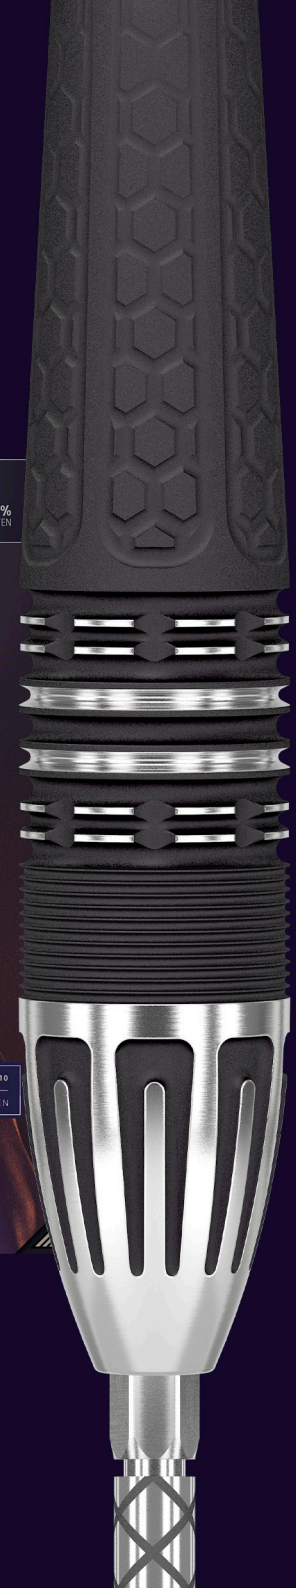

# POWER 9FIVE GENERATION 10

The Power 9Five Generation 10 - created and designed in collaboration with the 16 X World Champion. The result is a high precision 95% tungsten barrel with the perfect weight and balance.

The barrel offers a high level of CNC milling throughout with extreme detail.

The barrel features 3 grip areas, the front is a chrome CNC milled grip with black PVD coated inlay which then moves to a combination of machine milled rings and nano grooves with subtle detail.

HOLLYWOOD G1

**HOLLYWOOD**

The Chris Dobe Generation One, designed alongside 'Hollywood' to his exact requirements.

The 90% Tungsten barrel features radial grooves throughout the barrel offering a simple and clean grip for multiple throws.

This grip is further enhanced by small amounts of CNC machine milling at the front of the barrel which increases grip and feel.

GERMAN GIANT G2

# GERMAN GIANT

The Gabriel Clemens Generation Two, created and designed alongside the 'German Giant' to provide the perfect playing dart.

The 90% Tungsten barrel, shaped to Gabriels exact requirements offers multiple grip profiles including Radial at the front and a dual radial grip zone at the back – this is all separated by the high precision CNC milling rings found in the centre which adds to the look and grip of the barrel.

CRUX

# CRUX

Crux is a multi-barrel dart range featuring perfectly balanced and engineered barrels which offer classic grip profiles suitable to all throw and techniques.

The main grip profile on Crux is radial grooves which are machined in a variety of ways throughout the different barrel shapes, providing a variety of grips and choices for all different throwers

NEW PRODUCTS  
APRIL 2023

LUKE LITTLER G1

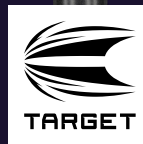

The Luke Littler G1, designed alongside 'The Nuke' to his exact specifications and requirements.

The 90% Tungsten range offers a multi-grip barrel profile, consisting of Dual Pixel Tip at the front and centre of the barrel providing a high level of grip and then finally a fine radial groove grip at the rear of the barrel for a more subtle feel.

The barrel is then overlaid with Black PVD Performance coating and further re-machined to highlight the Dual Pixel Tip technology.

RVB BRASS

# RVB

The RVB Starter set features intricate radial grooves on the barrel for enhanced grip.

The barrel is coated with a PVD coating and complemented with red & gold rings to give a vibrant finish.

The dart range includes a range of additional accessories to ensure you have the optimum set up to play. The kit is completed with 3 sets of Pro Grip shafts, 3 sets of 'RVB flights and 1 storage wallet.

MARCH 2023

ROB CROSS BLACK

# VOLTAGE

The Rob Cross Black Edition created and designed in collaboration with 'The Voltage'.

The barrel offers multiple grip profiles including CNC milling throughout offering a firm grip which is then separated by radial grooves. These grooves are then overlaid with a teal performance coating adding to the finish of the barrel.

SWISS STORM POINT

# SWISS

The Swiss Storm Point a combination of Swiss Point Technology and Target Darts best selling point profile – the Storm Range.

The point has been designed using Stainless Steel which is further enhanced by a vacuum hardening process increasing durability and structure.

Sitting flush with the barrel, the point reduces flight deflection and allows for a smoother grip and feel between point and barrel.

DIMITRI VAN DEN BERGH G2

DREAMMAKER  
DREAMMAKER

The Dimitri Van Den Bergh Generation 2 Steel tip dart has been designed alongside the 'Dream Maker' to his exact requirements. The result is a beautifully designed 90% tungsten dart which suits a variety of grips.

Similar to his Generation 1, the 90% tungsten barrel is tapered at the nose and features a combination of radial grooves running throughout the rear and centre of the barrel. At the front, the barrel features nano grooves for additional grip.
